

Wits student wins AeSSA prize for Best 4th Year Engineering project

Robert Clark, a student of the University of the Witwatersrand (Wits), is the 2018 winner of the annual AeSSA Award for Best 4th Year Engineering or Honours Degree Project.

In Clark's absence, Prof. Robert Reid, Head of School: School of Mechanical, Industrial & Aeronautical Engineering, received the trophy from Marié Botha, President: AeSSA, at an AeSSA lecture held on 18 July 2019.

The topic of Clark's project was *Flow Topology around a Supersonic Aircraft Body*. His supervisor, Prof. Beric Skews, had the following to say about the project: "All in all it is an exceptionally executed project by a wholly committed student to aeronautics."
