

Denel Aeronautics host PBHS Aeronautical Society

AeSSA Council Members Johnnie van der Berg, David Toma and Danie Loots hosted John Illsley, Second Master of Pretoria Boys High School (PBHS), and 18 boys of the PBHS Aeronautical Society for a tour around the Denel Aeronautics maintenance facilities of Rooivalk, Oryx and Cheetah on Wednesday, 9 October 2019.

During the two-hour visit, the boys were given a brief overview of each of the platforms as well as the activities in each of the facilities. Illsley says, "After the visit to the factory we were able to view the stored and cannibalised airliners that are parked on one corner of the Denel property. The boys enjoyed climbing into several of these!"
